

# Hotbox

## Maximum organisation

Hotbox Origin was carefully designed to be compact yet spacious.

For those who want to store larger items, Hotbox Origin has a flexible interior with reconfigurable dividers allowing you to customise how you want to be organised.

Hotbox Origin has a unique retractable lid that folds away neatly making it easy to access files, pens and larger items when both working from home or in the office.

If you need to store important and confidential items away safely and securely Hotbox Origin comes with a combination lock giving those in need of extra security the reassurance they are looking for.

Hotbox Origin also clips onto your desk using the optional desk clamp so it is readily available for all your flexible working needs.

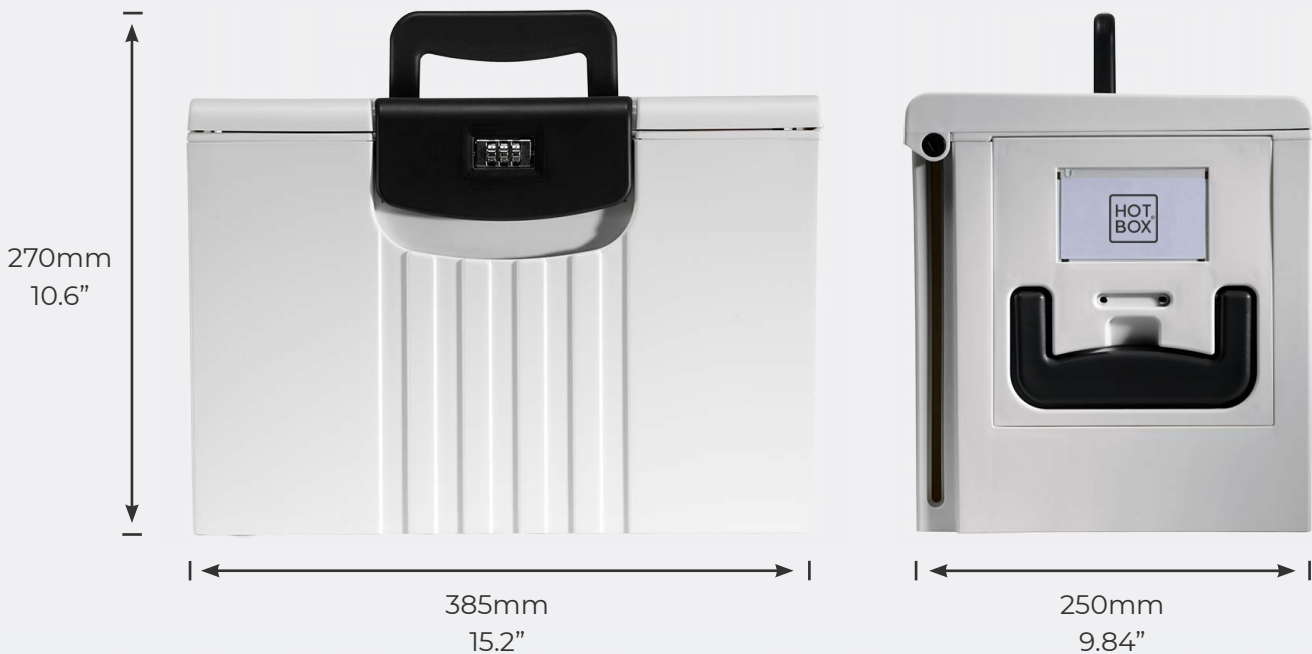

From the Designer Jamie Rothwell

# Hotbox **ORIGIN**
